

Ashish Singh

Operations & Sales Planning | Data Analyst | Safety Trainer | Research & Development

Gurugram, Haryana, India | +91 7206617045 | singhashish63661@gmail.com

PROFESSIONAL SUMMARY

Operations and Data Analytics professional with 3+ years of experience in process optimization, ERP/CRM implementation, and data-driven decision-making. Specializes in workflow automation and operational efficiency, helping organizations reduce manual effort, minimize errors, and generate actionable insights. Hands-on experience in Research & Development, including internal software development, marketplace applications, and automation strategy, alongside Amazon Fulfillment Center (FC) operations experience in safety compliance and performance monitoring. Successfully trained 2,000+ drivers and staff across India on road safety, driver safety, and product knowledge.

PROFESSIONAL EXPERIENCE

Research & Development Specialist — SSRC Logistics Private Limited, India

November 2025 – Present

IT Innovation & Development

- Researched and identified emerging technologies and digital solutions to enhance operational efficiency.
- Strengthened IT infrastructure by implementing scalable and innovative systems.

Automation & Process Optimization

- Designed and deployed automation solutions to streamline workflows and reduce manual effort.
- Improved productivity by optimizing internal processes and eliminating inefficiencies.

Internal Software Development

- Developed and maintained internal software systems for efficient management of operations, data, and resources.
- Focused on building scalable and user-friendly solutions aligned with business needs.

Marketplace & Application Development

- Contributed to the development of marketplace platforms and business applications.
- Enhanced digital services to support business expansion and customer engagement.

Technology Strategy & Implementation

- Analyzed business requirements and recommended IT strategies for scalability and digital transformation.
- Ensured smooth implementation of technology solutions aligned with long-term goals.

Cross-Department Collaboration

- Collaborated with multiple teams to understand operational challenges.
- Delivered technology-driven solutions to improve internal processes and efficiency.

Operations Manager — MashEye InfoTech Pvt. Ltd., India

August 2024 – October 2025

Operational Leadership

- Managed end-to-end daily operations, coordinating cross-functional teams.
- Ensured alignment with organizational goals and improved overall efficiency.
- Streamlined workflows to enhance productivity and execution.

Process Optimization & Automation

- Led process improvement initiatives using lean practices and automation tools.
- Eliminated redundancies, reducing delays and improving task accuracy.
- Implemented ERP/CRM systems, client portals, and mobile applications, minimizing manual errors.
- Identified inefficiencies and introduced solutions to improve performance and reduce costs.

Data-Driven Decision Making

- Leveraged data analysis and performance metrics to drive strategic decisions.
- Developed a data-driven inventory management system, reducing carrying costs.
- Built dashboards for real-time insights and faster decision-making.

Vendor & Client Management

- Managed vendor and client relationships, ensuring long-term partnerships.

- Negotiated contracts to control costs and secure value-added services.
- Conducted vendor evaluations using due diligence and market research.

PROJECTS
